Russia Willing To Keep Arms Cut Talks Going Not Justified

Zorin Silent On West Plan

LONDON, Sept. 3 (A)-Valerian Zorin declared Soviet willingness to keep talking on "basic questions" of disarmament today but greeted with stony silence the efforts of Western delegates to draw him out on the main points of their package plan.

Spokesmen for the United States Britain and France demanded in turn whether Zorin's bitter attacks on the West last week had left room for further negotiations in the U.N. Disarmament subcom-

Zorin refused to answer their questions. His only comment was that he did not object to a U.S. proposal that the subcommittee meet again tomorrow - and that he would then be willing to discuss basic questions of disarma-

Eisenhower Says Tax Cut

Pronounces Budget Saving Too Small To Warrant Slash

WASHINGTON, Sept. 2 (A) -President Eisenhower figured today that Congress cut appropriations only a billion dollars. He pronounced the saving too small to warrant a tax cut.

Eisenhower strongly disputed congressional claims of five to 61/2 billion dollars of economizing. He told a news conference the session just closed played a financial 'guessing game" and that some of the claimed cuts were "almost eye-wash" because they will have to be restored.

Describing inflation as the nation's major internal problem, Eisenhower appealed to all the people to help fight it by buying more cautiously. He said he wasn't advocating a buyers' strike but that everybody should buy selectively

"Today a remarkable new automobile joins the Ford family of fine cars"

here has never been a car like the Edsel. It is a magnificent automobile. Behind it lie all the resources of Ford Motor Company, all of the experience and all of the engineering skill. The results:

The Edsel is powered by the newest V-8 engines in the industry-the Edsel 400 and the Edsel 475. Their specifications: 400 and 475 foot-pounds of torque; 303 and 345 horsepower; 10.5 to 1 compression ratio. You have never handled this kind of power before.

The Edsel's big, safer brakes do not need

periodic tightening. They adjust themselves automatically in the course of your day-to-day driving.

The Edsel shifts itself. With Teletouch Drive, you just touch a button on the steering wheel hub. Teletouch Drive does the rest-smoothly, surely, electrically.

The Edsel's list of available new features includes a warning light that flashes when you exceed your pre-set speed limit; another that flashes when oil is one quart low; a release that opens the luggage compartment from the driver's seat.

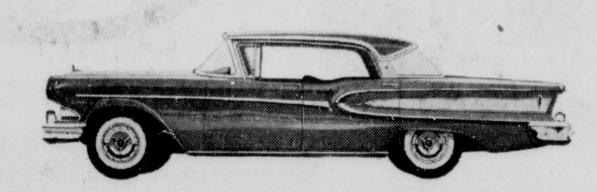

You will find there are many things that make the Edsel different from any other car you have ever driven. More exciting, more sure, more safe.

What does an Edsel cost? Prices range from just above the lowest to just below the highest. You can afford an Edsel. And you can choose from four series, 18

This is just a figure of speech, of course, but the proverbial snowball vendor had nothing on the retail pharmacy, for we too are in business to sell things people don't want. They'd much rather be well and not need a prescription. Yet, the pharmacist must stock thousands of drugs which he can't sell until a third party, the physician, gives the customer written permission to buy in the form of a prescription. Naturally, this unique situation presents somewhat of a problem to the drug store as far as keeping drug stocks fresh and up to date, since it is sometimes difficult to anticipate what products will be in demand. That's why it makes sense to have your prescription filled where the inventory is large and the turnover of drugs rapid. In Cumberland that, of course, can mean only Walsh-McCagh, one of Maryland's largest prescription pharmacies, where giving you the finest possible prescription service from the world's best drug suppliers is the first order of business.

"Pirates" Add Fuel To Oyster City Is Paid War Of Maryland, Virginia For Removal

By DEANE & DAVID HELLER

ANNAPOLIS, Md.-The powerful, souped-up motors of the outlaw ship purred quietly, almost noiselessly, as her crew silently went about their illegal work. Taking advantage of night and a blanket of fog, the modernday buccaneers were making a big haul.

Suddenly, out of the darkness, the brilliant glare of a searchight knifed through the soupy "You're under arrest!" a stern voice from a public address system told the crew of the outlaw ship. "Stand by for boarding. Don't attempt to escape or we'll open fire!'

The outlaw vessel's answer was to open up her souped-up engines full speed ahead in a mad dash to escape to the distant Virginia shore. The police vessel, a ship of the Maryland "navy," not fast enough to intercept the marauder, opened fire with rifles and shotguns. (Machine guns are seldom used any more in the Maryland - Virginia "oyster war.'

Pinged Into Hull

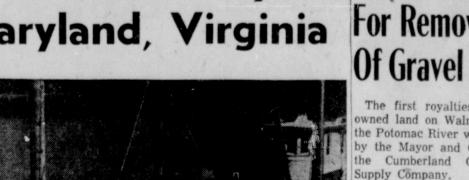

A dozen bullets pinged into the disappearing ship's hull. Whether anyone was injured or killed, the Maryland authorities never learned. If there were, it would be nothing new, for there have been shooting casualties aplenty -on both sides-in this bitter oyster war.

In the meantime, everyone agrees, something has to be done

People who can easily pay any price say:

"Pay more...what for? Ford's the buy!"

Why? Because this 1957 Ford gives you the advanced features, the solid ride, the effortless handling that you once expected to find only in expensive cars. And when it comes to looks, where in all the world can you find fresher styling than in the sculptured-in-steel lines of this new Ford?

Ford's superiority is evident in many places. In the vital rear axle, the pinion gear that turns the rear wheels is straddle-mounted . . . supported between two anti-friction bearings instead of being "overhung" from a single bearing. This makes operation quieter, smoother and longer-lasting. It's a feature that Ford shares with only one other car maker-Rolls Royce.

Or consider Ford's famous V-8 engine. No other manufacturer in the industry today electronically balances every V-8 engine, while operating under its own power, the way that Ford does. This means you get a smoother-running engine—the finest V-8 in Ford's 25 years of V-8 leadership.

These are only a few of the important hidden values that are yours in the new kind of Ford. But they indicate why so many people who can pay almost any price for a car-people who have driven expensive cars for years-are buying Ford today. Action Test this great performing car at your Ford Dealer's just once and you too, will ask, "Pay more ... what for?"

YOU CAN SPEND HUNDREDS MORE ... BUT YOU CAN'T BUY BETTER THAN THE NEW KIND OF FORD

CONSTIPATED? new laxative discovery

without gag, bloat or gripe

un-locks bowel blocks

Constipation is caused by what doctors call a "thrifty" colon. A "thrifty" colon is one that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and ex-

pels waste from your body. TO REGAIN NORMAL REGU-LARITY two things are necessary. First, the dry, shrunken contents of your colon which now block your bowel must be re-moistened. Second, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it and so, excite its muscles to

The Four Hundred: . They Are Our Dead

Another long holiday weekend has come and gone, and once again 20th Century man has made a tragic fool of himself. For, with all his magnificent advances in the science of preserving and prolonging life. he has wiflessly sacrificed more than four hundred lives in the reckless celebration of a single American holiday.

Except in the homes of the victims, there is little mourning. A busy nation has hurried back to work, without any noticeable feeling of guilt or responsibility for its dead.

Yet where does the responsibility lie? Certainly, a major portion attaches to those drivers who willfully ignored traffic rules and thereby turned their comfortable cars into lethal weapons. But most of the drivers who were involved in fatal accidents last weekend did not roar down the highway at ninety miles an hour through an alcoholic fog. Some were merely inconsiderate; others were guilty only of a momentary lack of alertness; many were victims of unsafe habits that finally caught up with them.

But the errors of these drivers do not cover the whole responsibility for the deaths of their victims. There is a large share left over for a public that permitted them to kill themselves and each other. So long as we do not demand and support better enforcement, better roads, better attitude training of new drivers, and removal of unfit drivers and vehicles from the highways, our pre-holiday pleas for traffic safety will count for little. So long as we, in one breath, deplore the accident toll, and in the next boast about our horsepower, we do nothing to expiate our guilt. So long as we do this, the dead are not merely the dead; they are our dead.

These Days

By George E. Sokolsky

More On Moonlighting I have had more fan-mail, as it is called, in

response to my article on moonlighting than on most other recent ones. Many readers disagree with my views on the subject, holding that I am close to a criminal, a moron, a fool, an idiot, etc., etc. for believing that a man should hold more than one job and make as much money as he can.

Times sure have changed. The go-getter has become a forgotten American. What one wants to do these days is sit on his hindsight and watch the world go by. E. J. Sebold of Syracuse, New York, has the 168 hours of a week carefully budgeted:

"40 at work

56 sleeping 21 eating

4 to & from work

7 miscellaneous (such as shopping, recreation, barber shop and a hundred other things)

128 hours"

But he still has an additional 40 hours a week to spare. Now the question in my mind is that granted that his budget makes sense, what does he actually do with the additional 40 hours? I wonder how many fathers spend 40 hours a week "developing the young buck," by which he means his children.

To this additional 40 hours a week must be added part of the 21 devoted to eating, if the children are around for meals. That is a tremendous number of hours for papa to be in everybody's hair, asking questions, giving advice, becoming increasingly biographical as the years go on. It is bad enough to see a grown man act like a mamma's boy; it is worse for children to live in the shadow of papa knows best. When will such kids ever learn to think for themselves?

"I have to tell you from my life experience (I am a women of 52 years) among the average People how this Moonlighting works out in family

"The man comes home about 6 ocl. to eat supper and can then only spend 3 or 4 hours before bedtime with his family to educate his children, to keep them and his wife company and take care of his own body and soul. If he has a second job like you so 'develish' recommend, so he can't see his family before bedtime."

This lady says that women whose husbands have two jobs get lonely and start chasing around with other men. Also that the children of such a family become juvenile delinquents, probably because they grow disgusted with father working so hard and such long hours to provide the funds to send them to college where everybody must go willy-nilly. Such parental activity is apparently truly disgusting as father ought to sit around watching TV on how other men live by doing nothing, I suppose.

I am advised: 'Just take the effort and look into the cases of those Juvenile Delinquents you find them certainly children of Moonlighters where Family life stops, they run after that extra Dollar instead minding their most

precious possessions, their wifes and children. Those extra Dollars don't bring them any blessings only Too bad, but it just ain't so. Many juvenile delinquents come from broken homes; some come from so-called excellent families. There just is no rule which is what has puzzled sociologists and professional social workers. In the epidemic of

sex murders, it is neither the hard-working nor the idle parent who is exclusively to blame; some of the worst cases (at least one notorious one in New Jersey) came out of a religious, law-abiding, clean-living family.

Perhaps this is not a problem for the sociologist; maybe it belongs to the science of psychiatry. Certainly this lady in Brooklyn who has written so eloquently does not have the answer. A father can work lots of overtime and produce a good family; a father can be an idle good-for-nothing living on his wife (rich or a working woman), and produce a good family. Gangsters Thrive On Miami Beach; Senate Agents Are Investigating

Drew Pearson is touring the Medi terranean. During his absence, the Washington Merry-Go-Round will be written by his junior partner

MIAMI BEACH - When the Teamsters converge on these gilded shores for their convention later this month, they'll find more racketeers per square mile than anywhere else in the country. They'll also find that Bob Kennedy's Senate sleuths have been here ahead of them.

The scandal-scarred Teamsters couldn't have picked a more auspicious place to dramatize their ties with the underworld. Bankroll flashing mobsters hang out in the pastel palaces along Collins Avenue, mingling with portly businessmen and their bejeweled wives who come to Miami Beach for the world's most expensive suntans.

In the dazling honkytonks here can be found the biggest names in both cafe and criminal society, Who's Who in the Social Register and the rogues' gallery.

Following up Senate investigators, this column scouted underworld haunts, traced phone calls between racketeers and interviewed both the cops and the crooks who prowl the neon-lit night here. Here are our find-

Telephone records show daily calls to gangland chiefs all over the country.

An unlisted phone behind the bar and a pay phone in the corner are kept busy with calls to such notorious gangsters as Vincent "Jimmy Blue Eyes" Alo, who succeeded Frankie Costello as rackets boss in the New York area: Paul "The Waiter" Ricca, who sold his Lake Michigan mansion to the Teamsters; Johnny Dio, who socked a photographer during the recent Senate rackets hearings.

Also on the phone at the Gold Coast Lounge have been mob chiefs in New York, Chicago, Detroit, Cleveland, and Los Angeles, not to mention almost every known hood in the Miami area.

The lounge is run by blimpbellied Joe Sonken, who, police say, was formerly a partner in the Chicago call-girl racket with Pete Ornstein, alias Petey Arnold. The pair came to Miami a few years ago and opened Mother Kelly's night club.

A Negro bellboy identified Ornsiein and Mattie Hochberg as the cool thieves who walked off with a salesman's sample case full of expensive jewelry simply by asking for it. Ornstein posed as the salesman and asked a clerk to get it out of the hotel

A few months ago, the Ornstein-Hochberg partnership was dramatically ended by a wellaimed rifle bullet. Hochberg got it in the back while he was shaving. Police are still investigating the murder.

Senate Angle

Senate investigators have found a labor-racketeering angle that may permit them to crack down on both Sonken and Ornstein. The 250-pound Sonken

muscled in temporarily on the local Plaster Tenders, Hod Carriers, Construction and General Laborers Union.

Senate agents have also traced several phone calls to Ornstein from Anthony Goebels, alias Tony Ricci, in New York City. The rackets committee is investigating Ricci's connections with the Garbage Collectors' Union. They suspect he deposited union funds in his private banking account at the Dreyfus brokerage

Meanwhile, a grand jury is investigating charges against Miami Beache's former police chief, Romeo Shepard. The City Council thought enough of the charges to replace Shepard as police chief.

The decent people in the Miami area are trying to curb the racketeer influence on Miami Beach. Their latest move is to appoint tough, honest Dan Sullivan as County Safety Director with power to enforce the laws throughout sprawling, sun-soaked Dade

Most popular are the fabulous motels that are springing up north of Miami Beach... One with personality is the plush Chateau which has an impudent bird, "Jo Jo" the Talking Mynah which whistles at passing girls

... Another distinctive motel is the Venetian Isle, which takes guests cruising on Biscayne Bay in a gondola...Biggest feud on Miami Beach is between its two most spectacular hotels-the fabulous Fontainebleau and nextdoor Eden Roc. Ben Novack stepped on Harry Mufson's toes in corporative scrimmaging over another hotel, the Sans Souci. When Novack built the Fontainbleau, Mufson promptly put up the Eden Roc alongside. He deliberately constructed it to block the Fontainbleau from view.... Now the two are trying to outdo each other in building fancy swimming pools.

With a blonde's hair coloring and a brunette's brains a woman is irresistible.

most urgent tasks first. What is left over can be tackled later.

Many persons expect too much of themselves and fuss and fume when their achievements fall below schedule. These people should do the best they can without shirking and be satisfied with their production.

Help is needed whenever emotional upsets seem overwhelming. Confide in a level headed friend, counselor, clergyman, or physician. Running away from trouble is not good policy but occasionally it is the thing to do. This interval provides an opportunity to regain balance and see the problem in its true light.

The emotionally mature individual has learned to give and take. He yields a little even though the other person might be wrong. It is wise to let off steam by working in the garden or cleaning out the garage or basement. This is better than retaliating via a phone call or nasty letter. It is surprising what a cooling off period will do to maintain the respect of others.

DETROIT, Sept. 3 (A)-Al Kaline's leadoff homerun in the 11th inning gave the Detroit Tigers a 3-2 triumph over the Chicago White Sox today and dropped the Sox 512 games behind the league leading New York Yankees.

The loss, Chicago's second in the three game series here, virtually killed off any Chicago hopes of overtaking the league leaders.

Explorers Pick Van Parsons, Chazz Imes; Openers Set Sept. 13

Election of co-captains was announced yesterday at two Cumperland high schools as the local squads began drills for the third week in preparation for opening games on Friday, September 13.

Coach Chester G. Payne, startmg his second season at Allegany High School, announced the Campers' co-captains for the approaching campaign will be Harry Grimes, senior guard, and Douglas Walker, senior fullback, who served as the team's offensive left halfback last season. Both players were elected unanimously by varsity lettermen.

Coach Payne states he has cut his squad to approximately 65 players and will make further reduction today when one-a-day practice sessions get under way at 11 a. m. Drills on Thursday and Friday will start at noon. Since August 15 two practice sessions have been held daily.
